

VICTOR KARUNGARU MITHAMO

I am a dedicated and efficient full stack developer with 6+ years experience in Programming. I am highly skilled in web based technologies such as wordpress CMS, PHP, React, React Native & Nodejs. I have successfully spearheaded development and integrations of Restful APIs in Node JS and Java Spring Boot. I have advanced knowledge in server set up with experience using Linux based servers and Cpanel based servers. I have worked with Relational databases such as MySQL and Non- Relational databases such as MongoDB.

I am seeking to further improve my programming skills as a software engineer in your organization.
