

VICTOR KARUNGARU MITHAMO

I am a dedicated and efficient full stack web developer with 5+ years experience in Web Programming. I am highly skilled in web based technologies such as wordpress CMS, PHP, React & Nodejs. I have successfully spearheaded development and integrations of Restful APIs in Node JS. I have advanced knowledge in server set up with experience using GCP and Digital Ocean cloud servers and Cpanel based servers. I have worked with Relational databases such as MySQL and Non- Relational databases such as MongoDB.

I am seeking to further improve my programming skills as a full stack web developer in your organization.
